

Feeding & Swallowing Evaluation

We are looking to meeting you and your child for his/her feeding evaluation! When scheduling your feeding evaluation, please select an appointment time that coincides near to your child's mealtime or snack time.

In order to optimize your evaluation time, please bring the following items to the evaluation:

- Intake paperwork
 - Developmental History
 - Sensory Profile
 - Food Intake Form
 - Insurance Information
- Please bring copies of other pertinent medical records, such as:
 - Reports of swallow study
 - Medical reports from specialists, such as GI doctors
 - Past feeding evaluations
- Infants: Please bring bottle to session, as well as any baby food or table foods your infant is beginning to eat.
- Several of your child's preferred and non-preferred foods. A variety of foods from various food groups (proteins, carbs, fruits/vegetables) will be helpful.
- Utensils (plate, eating utensils, and cup) your child uses. If your child utilizes a variety of utensils (such as drinks from both a sippy cup and open cup) please bring all of these to the session as this will help your evaluating therapist best assess your child's oral-motor skills.

Please do not hesitate to contact us at 402-391-2001 with any questions you have regarding your upcoming feeding evaluation.
